N. B. KLAINE,
EDITOR AND PUBLISHER.

THURSDAY, AUGUST 29, 1901.

A successful farmer whose 35 years experience in Kansas lends value to his words said to the writer last week that he expected to make more money this year than he has made in any one year in the last five. He has 3,800 bushels of old corn in the crib. He has 100 acres of sorghum growing. He will buy 100 yearlings from people who are scared. He will buy 100 to 200 young hogs. He may buy some feed. He will have some good stock to sell next summer when, in his opinion, stock will be scarce and high. This man began as a hired hand on a Kansas farm. He has now several hundred acres of good land well improved. His judgment is generally about right, and his execution of his plans is always vigorous. The man who puts most thought and investigation into present problems is most likely to turn the untoward circumstances into profit for himself.—Kansas Farmer.

Increase in Cattle.

"Ten years ago," says the Hoxie Sentinel in an item which shows how rapidly and profitably cattle will multiply. "John Sims presents his two sons, Willis and Robert, with a cow each and put them in Willis Johnson's herd to pasture, instructing Mr. Johnson to sell or trade the steer calves for heifers and also sell enough of the increase to pay the herd bills, which he has done. Mr. Sims and family returned home from Colorado, where they had been seven years, and the boys found that each had a nice little herd of cattle. One had rather bad luck, however, and only found twelve, while the other found he was the possessor of twenty-eight, making a total of forty for the two cows, after deducting all loss and expenses."

Normal Institute.

Again the teachers of Ford county have enjoyed a pleasant and profitable institute, and in order to manifest our appreciation of the work done in our behalf and in behalf of the schools of the county, we, the committee offer the following resolutions:

That we extend our sincere thanks to our efficient Superintendent C. E. Lopp, for the many ways in which he has contributed to our enjoyment and to our best interests as teachers;

That we recognize in Prof. C. G. Meserley a most successful conductor and a truly scientific educator, and that we express our appreciation of the inspiration he has given us to strive for greater improvement in the character of our professional work;

That we consider Prof. Dimond a thorough and able instructor, and thank him for the material way in which he has aided us to a better understanding of the subjects we have pursued under his direction;

That we are grateful to Prof. Shepardson for the good work he has done in our institute, and although he came among us as a stranger, he leaves us with the best wishes and sincere friendship of all;

That to the Board of Education we extend our thanks for the use of the school building and apparatus;

That we acknowledge the encouragement and sympathy which our friends have shown toward us and our work by their presence at various times during the session;

That this institute has been one of the most successful ever held in Ford county, and that we go to our various schools determined to put into practice the ideas we have gained.

(SYRIL DODGE,
Committee
LIZZIE MOTZ,
W. F. CLARK.)

Bargains in New and second hand Bicycles at the NOVELTY WORKS, 3 doors below the Rink.

Some people imagine that a newspaper can be run on wind. They look for it eagerly every day or week expecting to find something about themselves, with their photographs attached; and yet they forget to pay their subscription accounts.

BUCKLIN BREEZES.

From our Regular Correspondent.

A. S. Drake was shipping cattle here Tuesday for the Kansas City market.

Jesse Handy is on the sick list. He is confined to his bed with Typhoid fever or Malaria.

Mrs. L. L. Hammer, left on the Rock Island Tuesday for Trexline, Texas, where she goes to her sister.

John O'Leary and wife came in Saturday from Pratt county where John has been working with a threshing machine for some weeks.

Geo. Steel from near Ford was in Bucklin Tuesday with a load of water-melons. The melons were of goodly size, so was the price.

G. H. Davis and family of Pittsburg, Kansas, came in on the Rock Island last Saturday, for a visit with Mr. Davis' parents, Mr. and Mrs. H. C. Davis.

Chas. Davis and wife of Pueblo, Colorado, came in last Wednesday on a visit to their parents Mr. and Mrs. A. Cook, and Mr. and Mrs. H. C. Davis and numerous other friends in this vicinity where they lived for many years in their days of single blessedness.

Rev. P. O. Davis and family of Arlington, Kansas came in Monday evening on a visit to home folks. Mr. and Mrs. H. C. Davis will be as happy as harks, with so many of their children at home again, but we expect that it will be a little hard on the chickens.

Section foreman, Geo. W. Artwein is off on a vacation. He left Monday evening via the Rock Island route for Buffalo, N. Y., Niagara Falls and perhaps some points of interest in Canada. Mr. Nelson of Pratt has charge of his section during his absence.

Mr. Gregory of Pratt was here the first of the week looking for a business location. We understand that he contemplated starting a bakery and restaurant. Mr. Gregory returned to Pratt but said he would be back here soon. Well come on there is room.

I guess that Frank Trager has not got much faith in this hot weather lasting all ways by the way that he is piling up the hard coal. He thinks that there will be a cool wave by and by and that his numerous customers will need something to keep them warm. Well, Frank, perhaps you are right.

Some busy bodies have been circulating a fairy tale among the railroad men that rents were exceedingly high here, in fact that it would be a regular hold up when they wanted to rent houses here. Now boys this is not true, but investigate for yourselves before forming hasty conclusions.

Work on the grading is progressing finely. Engineer Bradley is here again this week looking after the work over about the round house location. Fireman Murphy has a gang of men at work laying steel and putting in switches, getting the track ready so that the material for the round house can be run in and unloaded on the ground where it is to be used. It looks like business over there.

Last Sunday some boys were playing with an old revolver. It seems that a son of J. W. Tont had the gun in hands when it accidentally discharged, slightly wounding him in the hand. The bullet then entered the leg of Richard Dewell, son of R. C. Dewell. The ball entered the boy's leg about half way between the knee and ankle, making a painful if not serious wound. Dr. Brechtel dressed the wound but did not succeed in locating the bullet.

Well I guess that all of our folks have returned home from the reunion at Dodge City and all of them say that they had a good time and that they were well entertained, and that they expect to go again. From what I can learn from the talk of those that were there, the amusements were numerous and varied and all had a chance to have a good time in their own way. To us it seems that some of the ways of having a good time was a little peculiar to say the least. Well Dodge City has a right to be proud of the success of the reunion.

J. H. Barthauer who has been here for the last two months settling the estate of Gottlieb Barthauer, deceased, has finished his work and left for his home in Logan county Ohio, Monday evening. Mr. Barthauer said when bidding us goodbye, "don't think that I am bidding goodbye to Kansas, for I am not." Mr. Barthauer thinks that at no distant date in the future he will return and make his home here. He says that he likes it here much better than where he lives and that his health is better here than there. That is the way with most of all of them.

Mr. Saylor of Johnson county, Kansas, is here looking for a location. H. P. McCaustland is showing him over the country. Mr. Saylor says that he is very much pleased with this country and that he fully expects to locate somewhere out here but that he intends to take time to look the country over well before making a selection. He says that we are in much better shape here than where he lives, that stock is in far better condition here than there, that there is an abundance of grass and water and that there, there is a shortage of both grass and water and that the prospects for feed there is not very flattering. Mr. Saylor has been a resident of Kansas for about

thirty years and knows what he is talking about and thinks he knows a good country when he sees it. There are several other parties here that are looking for locations but we have not learned their names, or where they hail from, but we hope that all will find places to suit them. Now is the time to buy before land gets too high. For instance there was one man came out here early in the summer looking for a place and he found a place about three miles from town that suited him which was offered to him for twelve hundred dollars, but he could not see but eight hundred in it so he let it pass and pulled out south into Clark county. Did not get suited there; then went north and east into Rice and Barton counties with same results and a week or two ago came back here and offered fourteen hundred and fifty dollars for the place that he had refused a short time before at twelve hundred, and could not get it at that, so he has gone again but we look for him back.

Wagon of Alfalfa Seed for Three Hundred and Fifty Dollars.

One wagon load of product from a farm sold in Wichita for \$351.67. It was alfalfa seed. Ernest Drees who lives near Bentley drove his two horses up to Ross Brothers' establishment and announced that he had a few bushels of seed in his wagon. It was full of the alfalfa seed which was purchased for the amount mentioned above, probably the only sale of alfalfa seed of that amount ever made here. Mr. Drees had a yield of alfalfa seed that is unprecedented in this section. Usually an acre of alfalfa yields from nine to twelve bushels of seed. Mr. Drees had one acre which produced eighteen bushels. The seed experts say this beats all records. The seed from that one acre brought \$91 which is pretty good for Kansas land.—Eagle, Aug. 25.

GRAY COUNTY NEWS.

From the Cimarron Sentinel, Aug. 22.
School commences Monday, September 2. A teacher for the primary department has not been employed yet.

Otto Lemert leaves soon for Salina, where he will attend the sub-collegiate department of the Wesleyan College.

Prairie chickens are plentiful but very few are brought in by the sports. They account for their poor luck by the absence of good dogs.

Mrs. Coe, sister of Mrs. Lemert, whose coming was announced in the Sentinel some time ago, arrived Tuesday night with her children and will make an extended visit.

Amos Dixon has secured the contract of moving a school house in the Ruden district in Ford county. The building is to be moved a quarter of a mile and Amos will receive \$58 for the job.

The report is going that Rev. G. B. Hadfield and Rev. Newby, both well known to the people of Cimarron, have joined hands and are rescuing the perishing down in eastern Kansas.

Joe Emery and Charley Warner transacted business at Dodge City, Monday evening, and in order to curtail expenses took passage via the "blind baggage route." The conductor promised to do the right thing and dump 'em at Wetick siding, but failed to keep his word.

Victor Carson, a Dodge City business man, accompanied by a handsome widow of the same place, was in Cimarron yesterday. They were bent on committing matrimony, but the absence of Probate Judge Dodson prevented the tying of the knot.

As Mike Sutton was on his way to the train the other night to go to Dodge City a reporter asked him how much longer he expected to hold the office of collector. Pointing up to the sky Sutton said: "He only knows and He won't tell."—Leavenworth Times.

At the revival meeting the other night a visiting minister was invited to open the service with prayer. After he had finished, the preacher in the pulpit proceeded to give him bail Columbia because the subject matter of the prayer did not agree with his views.

P. T. Thomas, Sumterville, Ala., "I was suffering from dyspepsia when I commenced taking Kodol Dyspepsia Cure. I took several bottles and can digest anything." Kodol Dyspepsia Cure is the only preparation containing all the natural digestive fluids. It gives weak stomachs entire rest, restoring their natural condition. Rath & Bainbridge.

What a common thing it is for a man to work hard 20 years accumulating a competency and then decide he can do better in some far away state. He sells his property at a sacrifice, finds his little fortune scattered to the four winds. Every train that passes through his town is loaded with chumps. One-half the passengers have been west or east and gone broke and are returning to their old homes to begin over again. The other have just sold their old homes and are running away to become poor. Why are people so foolish? The whole is alike; it is all around. There is no place where the climate is always pleasant; no place where contentment dwells; no place where wealth is easily gained; no place where work seems play. Don't run to the other side of the world expecting anything different.—Grant Show.

LATEST LOCAL NEWS.

Another light rain fell last night.

Prof. C. A. Smith has returned from his vacation.

Fine ice cream and soda water at GWINNER'S.

Even a light shower is a great benefit. The rain last night seemed heavier west.

Did you ever try it? A change of shoes will rest your body, and a change of socks will benefit your health.

A number of Ford county people will attend the National Encampment at Cleveland, beginning September 10.

Prairie chickens are quite plentiful. They are fewer in number however, than they were a month ago.—Jetmore Herald.

R. W. Eysen Jr., will attend the Law School of the State University, leaving September 10th. Karl Miller and Chas. Milton leave Monday for Bethany college. John Hobbles attends the State Normal.

Eastern People Asking About Property.

The real estate men report a great deal more inquiry about property in this city and county. A prominent dealer told a reporter for The Eagle last night that he is receiving about three times as many letters from the east about property here as he has received since before the first of July. He said that a great many people were coming to his office. He was kept busy showing land and houses, but for about six weeks did not show but very few. He also stated that the eastern people who once came to this county and saw how the dry weather was and then went back had a good influence on the people there. They do not believe near all the stories that are told about Kansas.—Wichita Eagle.

W. H. Beck brought in a barrel of pure, home made cider vinegar to J. M. Leidigh, Tuesday. This is a product of Mr. Beck's last year's apples.—Spearville News.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday, of Beming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." Sold by Rath & Bainbridge.

Hodgeman county will probably have a scarcity of teachers. It might be a good idea for some of our teachers who have not seemed positions, to attend the examination in Jetmore.—Spearville News.

There is so much news that even if it comes by telegraph we overlook some of it. Isn't it a fact that you have seen Dr. Caldwell's Syrup Pepsin advertised several times and have neglected to try it? An ounce of Dr. Caldwell's Syrup Pepsin is as good as a three weeks vacation. Ask any druggist or anyone who has taken it. Sold by Palace Drug Co.

Edwards county is short of teachers. A request came to our county Superintendent to send several teachers to Edwards county to attend the normal and take the examination but we have not heard that any went.—Spearville News.

A Minister's Good Work.
"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale by Rath & Bainbridge.

The camp meeting and the G. A. R. reunion have had their effect in drawing the attention of some of our number from work, but neither of these causes has had such bad effect upon some of the young ladies as a certain book agent who has the happy faculty of falling in love with just any girl who will speak to him. It's nice to fool a greenhorn but it takes time and attention from more important work. Don't you think so, girls?—Spearville News, Institute item.

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely removes this complaint. It relieves permanently because it allows the stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat so it can't help but do you good. Rath & Bainbridge.

WHERE DO YOU SPEND YOUR MONEY?

This is the inducement that I offer you on all orders of

TEN DOLLARS:

I will give you eighteen pounds of standard granulated sugar for One Dollar.

On all orders of Five Dollars will sell you Seventeen pounds of standard granulated sugar for one dollar. And all other goods will be sold accordingly.

Be sure to call and see me.

Sims & Sims.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure.

An intelligent mother in Butler, Pa., says: "Were I to need Mother's Friend again, I would obtain 9 bottles if I had to pay \$5 per bottle for it." Get Mother's Friend at the drug store. \$1 per bottle. THE BRADFIELD REGULATOR CO., Atlanta, Ga. Write for our free illustrated book, "Before Baby is Born."

First publication Aug. 15, 1901. ADMINISTRATOR'S NOTICE.

The State of Kansas, Ford County, ss. In the Probate Court in and for Ford County. Notice is hereby given that letters of Administration have been granted to the undersigned on the estate of Emanuel Kirby and Ida M. Kirby, late of said county, deceased, by the Honorable the Probate Court of the County and State aforesaid, dated the 7th day of August, 1901. Now, all persons having claims against the said estate are notified that they must present them to said estate, in which it is claimed that the same to the undersigned for allowance, within one year from the date of said letters, or they may be precluded from any benefit of said estate; and that if such claims be not exhibited within three years after the date of said letters, they shall be forever barred. C. M. BEESON, Administrator of the estate of Emanuel Kirby and Ida M. Kirby, deceased. Dodge City, Kansas, August 7th, 1901.

First publication Aug. 22nd, 1901. 6 times. CONTEST NOTICE.

Department of the Interior, United States Land Office. DONOR CITY, KANSAS, August 17th, 1901. A sufficient contest affidavit having been filed in this office by Hiram Wing, contestant, against Timber Culture entry No. 11452, made March 29th, 1899, for Northwest Quarter Section 10, Township 26, Range 25, by Chester Potts, Contestee, in which it is alleged that Chester Potts failed to break or cause to be broken five acres of said land in the year ending March 20th, 1899 and has failed to break or cause to be broken any land whatever upon said claim during the years 1899, 1900, 1901, 1902, 1903 or any year following said years to this date; that said Chester Potts has failed to plant or cause to be planted upon said land any trees, tree cuttings or tree seeds of any kind during the years 1899, 1900, 1901, 1902, 1903 or any year since said years to land; that there are now no trees or any land in cultivation upon said claim. Said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m., on October 18, 1901, before the Register and Receiver at the United States Land Office in Dodge City, Kansas.

The said contestant having, in a proper affidavit filed August 17th, 1901, set forth facts which show that after due diligence, personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication. THOS. A. SCATES, Register.
